Please note: H.S.T. is included in the selling price. Some lots may have model restrictions. Additional premiums may apply to some lots. Lot/location premiums do not include H.S.T. All sales tax on lot/location premiums shall be added on closing of the transaction in accordance with Revenue and Excise Tax guidelines. Lot premiums, options and extras that increase the final total purchase price at the closing of the transaction may increase the sales tax applicable to the transaction, including the base model amount. As a result, additional adjustments to the final closing amount may therefore be necessary at the time of closing, which shall supersede any previously calculated amounts. Plans, specifications, and prices are subject to change without notice. The ENERGY STAR® for New Homes Standard is administered and promoted in Canada by Natural Resources Canada. E. & O. - LED pot lighting in lower halls, kitchen and ensuite shower
- Modern swing passage doors and swing closet doors with lever hardware
- Convenient gas rough in for stove, dryer and BBQ
- Finished family room in basement
- Video Doorbell
- Programmable WiFi Thermostat
- Five Smart Switches (locations specified by builder)
- WiFi garage door opener
- Convenient USB outlet in kitchen and master bedroom (locations specified by builder)

### QUALITY CONSTRUCTION

- Copper Piping instead of PVC. Copper is VOC free, providing you with healthier water.
- Steel Reinforced Concrete Foundation Walls offer 18 MPa compressive strength, versus 15 MPa in Ontario Building Code
- Exterior insulation protects the concrete from freezing, which will reduce the risk of cracks and condensation problems.  
Using the TUFF-N-DRI® exterior membrane provides a 30 year warranty against water penetration.
- 2"x 6" stud wall framing at 24" on center provide the same support as traditional studs spaced 16" on center, but reduce thermal bridging and increases insulation lowering heating costs.
- 5/8" tongue and groove sub floor nailed, glued and screwed to pre-engineered floor joist system
- Heated plenum in floor above garage to keep the floor comfortably warm
- 30 year rated shingles
- 3-piece basement rough-in for future tub, toilet and vanity basin
- Oversized thermal slider basement windows to allow more light into the basement
- Our exclusive notched foundation brick check for prevention of water infiltration
- Comprehensive dual hi-tech Category 5 wiring for high speed connections
- PVC conduit for future hi-tech wiring from basement to attic
- Urbandale's "24-hour" Notice Warranty
- Urbandale's award winning After Sales Service Program
- Pre-paid Tarion Home Warranty fee

## ENERGY STAR® TOWNHOMES

### ENVIRONMENTAL DETAILS

- Efficient showerheads, faucets and toilets to save water by up to 30%
- All insulation meets or exceeds the requirements of the Environmental Choice Program for raw material from recycled glass or paper
- All carpets are labeled as green under the Canadian Carpet Institutes Green Label program. Green carpets are low VOC to improve indoor air quality and designed for recyclability.
- Eco-friendly flooring adhesives to improve indoor air quality
- Formaldehyde-free cabinetry reduces off-gassing of toxic chemicals to improve indoor air quality
- Eco-friendly paints that meet or exceed Environment Canada's Environmental Choice Standards to improve indoor air quality
- Heat Recovery Ventilator (HRV) connected to all bathrooms which draw in fresh air from exterior while recovering heat generated from inside. These units allow for controlled intake of fresh outdoor air to improve indoor air quality.

### ENERGY EFFICIENCY

- ENERGY STAR® Certified designates that Urbandale homes use 20% less energy than a house built to Code, with a corresponding decrease in energy costs.
- R-5.6 rigid insulation is attached to oriented strand board (OSB), increasing the structural integrity of the exterior walls
- Interior wall cavity insulation value R-22. Combined exterior wall assembly insulation value R-27.6
- 8-10" thick foundation wall insulation value R-12 on exterior plus R-12 on interior. Exterior insulation keeps the concrete foundation from freezing, reducing the chance of cracks and condensation problems.
- R-8 insulation under slab for warmer basements
- Raised heel trusses with R-60 insulation in attic
- Windows designed for the Arctic climate to keep out the cold and unwanted noise. We use ENERGY STAR® Certified windows (triple or double glazing, depending on the application, argon filled with a low-e coating).
- Draft protected outlets reduce air leakage and lower heating costs
- Condensing rental water heater with 90% Thermal Efficiency (TE)
- Power vent, forced air, high efficiency gas furnace w/ 96% Annual Fuel Utilization (AFUE). Multi-speed furnace fan matches the heating needs for more efficient operation.
- Heat Recovery Ventilator with 75% efficiency
- High capacity bypass flow through humidifier
- Programmable WiFi Thermostat can lower heating bills by 10% by lowering the temperature when the house is unoccupied
- LED lighting throughout home. LED uses 80% less than incandescent bulbs and last up to 25 times longer
- Drain water heat recovery system to save energy on water heating
